## COVID-19 - Small business support

This document has been prepared to summarise some of the small business support that has been provided during the COVID 19 National Disaster.

The writer acknowledges the information provided by the South African Institute of Tax Practitioners who provided a virtual update on this subject on the 2 April 2020.

Also acknowledging that things are changing at a rapid pace and the document will be amended as new information becomes available or as criteria for participation change.

There are four categories of assistance available:

- Deferral of taxes
- Grant funding
- Government Procurement
- Loan funding

## DEFERRAL OF TAXES

Only tax compliant enterprises and individuals will qualify for the tax relief measures mentioned below.

### 1. PAYE

With effect from 01 April 2020, SMME's with an annual turnover of less than R50 million, may defer payment of 20% of their pay-as-you-earn (PAYE) liabilities over the next four months, ending 31 July 2020. These amounts will need to be paid back to SARS in six equal instalments, commencing on the 7th of September 2020. Therefore, this impacts the 7th May PAYE payment – not 7<sup>th</sup> April as this relates to March PAYE.

This relief is not available where an employer has failed to submit a return or has outstanding debt.

<https://www.sars.gov.za/Media/Pages/CoronaVirus.aspx>

### 2. Provisional Tax

Instead of paying 50% of their estimated tax liability six months into the tax year and settling the full amount at the end of the tax year, tax compliant small businesses will now only have to pay 15% of the total estimated tax liability for the first provisional tax payment.

The second provisional tax payment will be based on 65% of the estimated total tax liability, and the outstanding balance will need to be paid as a third provisional payment by the 30th of September 2021, in order to avoid interest and penalties being charged.

The proposed amendments are deemed to have come into operation on 1 April 2020 and apply to:

- First provisional tax periods ending on or after 1 April 2020 but before 1 October 2020.
- Second provisional tax periods ending on or after 1 April 2020 but before 1 April 2021.

This is for SMMEs but it is unclear yet whether natural persons are included in this provision.

## GRANT FUNDING

### 1. Employee Incentive scheme (ETI)

Government proposes expanding the Employee Tax Incentive (“ETI”) programme for a limited period of four (4) months, beginning 1 April 2020 and ending on 31 July 2020 as follows:

- Increasing the maximum amount of ETI claimable during this four (4) month period for employees eligible under the current ETI Act from R1 000 to R1 500 in the first qualifying 12 months and from R500 to R1 000 in the second 12 qualifying months.
- Allowing a monthly ETI claim in the amount of R500 during this four-month period for employees from the ages of:
  - 18 to 29 who are no longer eligible for the ETI as the employer has claimed ETI in respect of those employees for 24 months; and
  - 30 to 65 who are not eligible for the ETI due to their age.
- Accelerating the payment of employment tax incentive reimbursements from twice a year to monthly as a means of getting cash into the hands of tax compliant employers as soon as possible.

<https://www.sars.gov.za/Media/Pages/CoronaVirus.aspx>

### 2. Temporary Employee Relief Scheme (“TERS”)

Government is in consultation on a proposal for a special dispensation for companies/employers that are in distress due to COVID-19. Through this proposal employees will receive wage payments through the Temporary Employee Relief Scheme. This will enable companies to pay employees directly during this period, thereby avoiding retrenchments.

- This is a separate benefit scheme (separate from normal UIF benefits with its own set of forms and requirements) which cannot be claimed at the same time as the UIF ‘reduced working time’ benefit.
- It applies where the company has closed its operations as a direct result of Covid-19 (at this stage this option does not seem to apply if the company doesn’t close entirely, but lays off only some of its employees)

- Claims are not dependent on an employee having any UIF credits and will be entitled to benefits irrespective of how long they have contributed.
- The company or employer (rather than the employee) submits a claim for UIF and the company then pays over the money to employees.
- The UIF will be prepared to “top up” any payment made by the employer (by prior arrangement with the UIF).
- The benefit will be calculated in terms of the income replacement rate sliding scale of 38 % (for high earners) and up to 60 % (for low earners) as provided in the Unemployment Insurance Act, subject to the maximum threshold which is currently R17 712. Despite conflicting reports, it is understood that the maximum benefit for a high earner would be 38 % of R17 712 a month, which amounts to about R6 730 a month. At this stage it is only for three months.
- Employer/s that have to enforce lock down as regulated and who might require financial assistance from the UIF should access information regarding available funding through a dedicated mailbox: covid19ters@labour.gov.za

#### Requirements:

- The closure must be as a result of COVID 19.
- If the company/employer has 10 or more employees, it will need to enter into a written agreement with the UIF.
- The company/employer must fulfil several administrative requirements, for example proof of payroll for the last three months.
- A dedicated bank account needs to be used by the company/employer to track the UIF benefits. This can be a new bank account, or the company/employer can clear an existing account.

### 3. Agro-processing Support Scheme

The scheme is administered the Department of Trade and industry and its objective is to stimulate investment by South African Agro-processing/beneficiation (agri-business) enterprises.

- The maximum funding available is R20 million per entity.
- 20% to 30% grant on capital goods.
- Qualifying criteria:
  - Be a registered legal entity (CIPC number).
  - Tax clearance certificate.
  - Be involved in starting a new Agro-processing operation or in expanding or upgrading an existing Agro-processing operation.
  - B-BBEE certificate (minimum level 4).
  - Purchase 30% of supplies from black owned farmers.

#### **GOVERNMENT PROCUREMENT**

Government has prioritised securing essential goods and services from all critical stakeholders nationally. The essential goods and services that have identified are required for the South African public including state owned hospitals, clinics, schools and essential place to:

- reduce the transmission of Covid-19.
- Protect the health of the public, vulnerable members of the society and employees of health institutions.
- Ensure that there is adequate supply of these products to pharmacies, hospitals and key sectors.

The Department of Small Business Development (“DSBD”) is implementing measures to support small businesses that manufacture critical products such as hygiene, medical goods, food items and related support services businesses.

#### Application Process:

- Register your business on [www.smmesa.gov.za](http://www.smmesa.gov.za)
- Submit your proposal to [criticalsuppliers@dsbd.gov.za](mailto:criticalsuppliers@dsbd.gov.za)
